

E2Eye320M

The infrared module E2Eye320 helps you to see invisible and provides a versatile and efficient solution for various thermal imaging applications.

SWAP

30*30*10mm
<500mW

E2Eye320M

- **Resolution** : QVGA 320*240
- **Frame Rate** : 60 FPS
- **NETD** : < 50mK
- **Function**: Native Shutterless
- **Output Connectivity** : MIPI
- **HFov** : 28° / 41° / 70°
- **Uncooled LWIR** Microbolometer
- **ATI320** from LYNRED
- **Made In France**

Platform Compatible & Drivers available :

Nvidia Jetson (Xavier, Nano, Orin NX & AGX)

Raspberry (Pi-4, Pi-5)
